

Compares two groups of objects, saying when they have the same number.

- Use the tweezers to put the red pom-poms in one bowl and the blue pom-poms in the other.
- Compare the pom-poms. Are there the same in each bowl?
- How can you check?

Challenge Set-Up Instructions

1. Place eight red pom-poms and eight blue pom-poms in a bowl on a table in the maths area.
2. Place two further smaller bowls on the table with a pair of tweezers.
3. Place the challenge card next to the bowls.
4. You may wish to use different sized pom-poms as an extension for the children.
